Re: **Subscriber Acknowledgement Report; WC Docket Nos. 04-36 and 05-196**

Dear Ms. Dortch:

Please accept this Subscriber Acknowledgement Report for November 28th, 2005 on behalf of Freeway Communications LLC (Freeway.com).

Freeway has sent out the required notice and acknowledgement form to all 25 of our current customers via email and standard USPS mail.

Current Percentage of Acknowledgements

As of November 28th, 2005 we have received 100% response for our 25 accounts. This gives us an effective current percentage of acknowledgement from our customers of 100%.

Freeway provides 911 services in compliance with the rules established in the VoIP 911 Order. Freeway provides 911 services through indirect wireline connection. Freeway interconnects with a provider of wholesale VoIP services and provides them with the required information for each subscriber to accurately populate the ANI/ALI database. Our wholesale provider is a CLEC who is interconnected directly to 98% or more of the PSAP's in their service area (California). The CLEC provider transports a 911 call directly with all of the customer's ANI/ALI to the appropriate PSAP over their direct connections to each PSAP. Freeway provides stationary VoIP service so the customer's registered location does not change.

Respectfully Submitted,

Lee Reeves
CEO
